## **Thank you for your interest in becoming a CUESCREENS affiliate!**

### **The issue:**

The CUE touch panel design suffers from a major flaw; the screen consists of two layers of glass with a thin layer of conductive gel between the glass layers. Over time and exposure to sun/heat, this gel dries out- resulting in cracks/bubbles, and lost touch response.

GM only authorizes complete module replacement at a cost of \$1,500-\$1,700, which is the same design that will fail again in 1-3 years.

### **Our mission:**

Provide a permanent, low cost repair solution to the common cracking/unresponsive CUE touch screens. Only the touch panel needs to be replaced- typically this is a 2-hour service on most models.

We are partnering with GM dealers and audio installers nationwide who want to offer their customers an opportunity to replace only the screen with a CUSCREENS panel at a low cost.

### **Benefits of becoming an affiliate:**

- ✓ 10% discount on orders over Qty. 5
- ✓ Your service facility listed on the upcoming "Find an installer" section of our website
- ✓ Simple RMA/Ordering process
- ✓ Full installation videos and documentation for technician training.

### **Why CUESCREENS is the #1 screen replacement seller:**

- Over 5,000 screens installed with 2+ years run time. 5 star rating on Amazon.
- Less than 1% defect rate
- Gel-free design: will not fail like the factory screens
- USA based support
- 1-2 day shipping available

**All we ask is that you recommend CUESCREENS to your customers and through social media.**
